

BOITUMELO BO FENTSE (PTY) LTD

COMPANY PROFILE

Bridging the Food Manufacturing Industry with the Micro & Chemistry Laboratory Industry

Independent • Professional • Transparent • Unbiased

Established March 2024 | 14+ Years Industry Experience

ABOUT US

Who We Are

Boitumelo Bo Fentse (PTY) Ltd was established in March 2024 with a clear purpose: to be the link between the Food Manufacturing Industry and the Micro and Chemistry Laboratory Industry. We provide independent, professional, transparent and unbiased sampling services, backed by more than 14 years of experience in the Micro and Chemistry Testing Laboratory Industry.

We pride ourselves on being the best service provider to our clients, ensuring that we cater to and attend to all clients' needs and concerns timeously and professionally. We partner with our clients on a journey of saving lives through reliable and consistent sampling and testing services, working alongside a network of accredited laboratories across the country to secure the best service, pricing and turnaround time for results.

Independent, transparent
and unbiased sample
collection.

Testing

Food Microbiological &
Chemical Testing.

Hygiene

Cleaning chemicals,
equipment, training and
deep-cleaning services.

Consulting

Food safety consulting,
compliance and staff
training.

Occupational Health and Safety

Supply of PPE for food
and non-food
manufacturing.

SERVICE 01

Sampling

The foundation of reliable results — objective, professionally executed sample collection that clients can trust.

Independent & Unbiased Collection

Sample collection carried out by trained field personnel, free from conflicts of interest, to protect the integrity of every result.

Strict Chain-of-Custody

Rigorous handling, labelling and documentation protocols preserve sample integrity from collection through to laboratory hand-over.

Transparent Process

Clear, traceable procedures at every step give clients full visibility and confidence in how their samples are managed.

Flexible, Timeous Scheduling

On-site sampling planned around production cycles and critical control points, minimising disruption to operations.

What We Sample

On-site sampling across the full range of food-safety touch points.

✓ Food / Final Product

✓ Water

✓ Environmental

✓ Hand and Surface Swabs

✓ Air Plates

SERVICE 02

Testing

Coordinated laboratory testing, clear reporting and hands-on support turning results into action.

We provide food microbiological & chemical testing through outsourcing to reputable, adequately accredited laboratories.

Micro & Chemistry Laboratory Testing

Testing coordinated through our network of accredited partner laboratories across the country.

Turnaround Time (TAT) Follow-Up

Proactive follow-up on outstanding results to keep laboratories accountable to agreed turnaround times.

Interpretation of Results

Results translated into clear, practical guidance so clients understand exactly what the data means for their operation.

Root Cause Analysis & Corrective Action

Hands-on support investigating out-of-specification results and implementing effective corrective actions.

Full Scope of Laboratory Testing

Coordinated through our network of accredited partner laboratories.

✓ All Microbiological Testing

✓ Chemistry Testing

✓ Water Testing (Including Full SANS 241)

✓ Shelf-Life Testing

✓ Nutritional Content Analysis

✓ Heavy Metals

✓ Multi-Residue Pesticides Screening
